Soft Skills

- Problem-solving
- Teamwork
- Communication

EDUCATION

2022 - 2024

Som Thum High School

- High School Diploma / Bac II Certificate

SUMMARY

I am a Backend Developer based in Phnom Penh, currently pursuing an Associate Degree in Web Development at Passerelles Numériques Cambodia (2025–2026). I specialize in building and optimizing server-side applications using JavaScript, and Node.js, with experience in developing RESTful APIs, managing databases, and implementing application logic. I am passionate about writing clean, efficient code and continuously improving my skills in backend development and system design

EXPERIENCE

Feb/20/2026

Full Stack Web Development Project (Laravel and React.js)
at Academic Project

- Developed a full-stack web application using Laravel (backend) and React.js (frontend)
- Designed and implemented RESTful APIs for efficient data communication between client and server
- Built dynamic and responsive user interfaces using React components
- Tested, debugged, and optimized application performance to ensure reliability and smooth user experience

Dec/22/2025

Backend Developer (JavaScript Project) at Academic Project

- Developed a JavaScript-based student project to practice core programming concepts and backend logic.
- Implemented interactive features using JavaScript, focusing on problem-solving, data handling, and application structure.

Nov/06/2025

Telegram Chatbot(Algorithms Project) at Academic Project

- Developed a Telegram chatbot using Python
- Integrated Telegram Bot API for automated messaging
- Implemented user command handling and response logic
- Connected the bot to a database for storing user data
- Tested and debugged chatbot features to ensure reliability
